Art Unit: 2616

1. The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required:

The newly introduced terms of “ATM packets” or “ATM packet” as in claims 17-21 do not have proper antecedent basis in the original specification disclosure. To be more specific, only the terms of “ATM cells” or “ATM cell” were described in the disclosure.

2. Claims 17-21 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The claimed subject matter of multiplexing the communication information, channel identification information of the communication information and information indicative of lengths of the communication information of a first ATM packet and a second ATM packet into a new ATM packet was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

3. Claim 21 is objected to because of the following informalities:

In claim 21, line 4, “TM” should read as -- ATM --.

Appropriate correction is required.

Art Unit: 2616

4. Claim 21 is rejected as vague and indefinite since the claim recites only a single means (namely, a unit) and thus encompasses all possible means for performing a desired function.

See Ex parte Bullock, 1907 C.D. 93; 127 O.G. 1580.

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alpus H. Hsu whose telephone number is (571)272-3146. The examiner can normally be reached on M-F (5:30-3:00) First Friday Off.
